

Water Pollution Control Authority (WPCA)

# **DO NOT FLUSH (DNF) LIST**

Point O' Woods homes are served by a community sanitary sewer system that could be damaged by flushing prohibited materials to the sewer. Only sanitary waste should be flushed down the drain.

*The following are examples of **WHAT NOT TO FLUSH:***

- |                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                             |
